Every contract for public works construction must contain a provision for employing citizens of this State or the United States. The hourly wage and benefit rate paid to laborers employed in the construction of public works, including state highways, may not be less than the fair minimum rate as determined in accordance with section 1308. Any contractor who knowingly and willfully violates this section is subject to a fine of not less than \$250 per employee violation. Each day that any contractor employs a laborer at less than the wage and benefit minimum stipulated in this section constitutes a separate violation of this section. [1997, c. 757, §1 (amd).]

The Apparent Low Bidder will have first option to furnish the equipment. Prior to award and if the Contractor swaps out equipment, the Department may inspect the equipment to be furnished to verify it meets specifications.

The MaineDOT reserves the right, to inspect the equipment and reject because of condition, and the Contractor shall have the option to replace the equipment with another acceptable, equivalent unit or the MaineDOT may assign the Work to another Contractor. Condition deficiencies may include, but are not limited to, equipment with excessive wear, broken parts, low hydraulic pressure, below standard operation, equipment that is not OSHA compliant or equipment with leaks that can get to the pavement, ground or into water bodies.

The Contractor shall perform all repairs, service and scheduled maintenance, except damage caused by the Department. The Department may have the Contractor repair damage by the Department and if so, this work is not to be included in the bid and will be paid for as Extra Work.

Except repairs and service caused by the Department’s actions, the Contractor shall perform all repairs, service and scheduled maintenance, and all costs for labor, equipment and materials required to perform this work will not be paid for directly and will be considered incidental to the Equipment Rental pay item(s). The credit will be deducted from the monthly rental for the number of days, in excess of one (1), that the equipment was unable or unsafe to operate computed at the rate per month in accordance with section "Measurement and Payment" below.

Transportation The Contractor shall deliver the equipment to and pick up the equipment from the MaineDOT facility in Oakfield, Maine.

The Contractor can be named as loss payee if requested in writing. Contractors cannot require insurance different than the coverage specified herein.

Changes The Department may return Equipment early, extend the duration, increase or decrease Pay Item quantities from the estimated quantities shown in the Bid Documents, and such increase or decrease shall not be considered Extra Work. The Contractor shall be paid for actual quantities in place and Accepted at the Unit Prices contained in the Contractor's Bid. The Contractor accepts such payment as full and complete compensation.

If the Contractor is able to furnish equipment meeting the contract specifications for the specified rental period, and the duration for any Item is reduced by the Department from the estimated quantities contained in the Bid Documents by more than 25%, then the Department may increase or decrease the Unit Price of such item using the extra work process. If alternative dates are mutually agreed upon and quantities are not reduced, there will be no change in the Unit Price.

If after award, the Contractor furnishes equipment which does not meet specifications or does not "substantially meet" specifications (as defined in Special Provision 102 & 103 Basis of Award), and it is in the Department's best interest to accept the equipment, the Department may, in its sole discretion, accept the equipment for use under this contract and adjust the Unit Price by 10% or more using the modification process set out in the Standard Specifications.
