SPECIAL PROVISION
SECTION 105
GENERAL SCOPE OF WORK
(Safety Plan)

In order to be awarded a construction contract, the Bidder must have a current, applicable Safety Plan on file with the Department or must submit an acceptable, current Contractor's Safety Plan or Project and Site Specific Safety Plan to the Department which identifies and addresses job hazards of the expected contract work and complies with all applicable federal, State, and local laws governing safety including all applicable laws and regulations of Occupational Safety and Health Administration (OSHA).

The Bidder's Project and Site-Specific Safety Plan shall address the specific activities or tasks that require protection and establish the procedures that are to be followed to minimize the hazard. Specific statements which describe both what action is to be taken and how it is to be performed are preferable. The plan shall address the following items which include, but are not limited to:

1. Personal Protective Equipment
2. Materials Handling
3. Lockout/Tagout
4. Accident Prevention
5. Crusher Operation and Repair
6. COVID 19

If a submittal is required, the Department will notify the Apparent Successful Bidder of the required submittal of the Contractor's Safety Plan, or the Project and Site-Specific Safety Plan and the Bidder shall submit two copies or an electronic copy to the Department within seven (7) days of the notice or the Department will reject the bid as non-responsive.

Within 14 days, the Department will review the Apparent Low Bidder's Safety Plan. The Department will review a Project and Site Specific Safety Plan to evaluate if the Bidder has a reasonable understanding of job hazards of the expected contract work, has determined preventive measures to overcome these hazards and understands that the work is to be conducted in compliance with this special provision, Contract requirements and all applicable Federal, State, and local laws governing safety including all applicable laws and regulations of OSHA. The Department reserves the right to communicate in writing with Bidders, if needed, to obtain additions to and/or clarification of information contained in the submittals received. Review by the Department, comments by the Department, or any failure to review or comment, shall not absolve the Contractor of its responsibility to develop and implement a Safety Plan in accordance with the Contract, or to shift any responsibility to the Department. The Bidder shall have 3 days to submit additions, changes and clarifications. Following this 3 (three) day period, the Bidder will have no additional opportunity to submit, modify or clarify information. The Department will not provide an opportunity for the Bidder to meet. If the Department and the Apparent Successful Bidder agree, an extension beyond the 3 days may occur and, in such case, there shall also be an equivalent or greater extension beyond the 30 days of the Bid and Bid Prices specified

in Standard Specification Section 103.4 Notice of Intent to Award and the Bid remains viable. In no case shall these extensions change the specified Contract Completion Date.

Based on these submissions, the Department will make one of the following determinations:

1. Qualified - The Contractor has satisfied the post-bid, pre-award Safety Plan requirements, however, the Contractor may still be required to make minor revisions to the Safety Plan or Project and Site-Specific Safety Plan prior to starting on site work.
2. Not Qualified - Bidder is not qualified to properly carry out the terms of the Contract and/or the submission does not meet specifications and accepted standards and is not acceptable, as determined by the Department.

There is no Appeal process and the determination of "Not Qualified" is final. The Department will reject the bid as non-responsive, and the Award process will proceed without the unqualified Bidder.

Failure by the Contractor to perform the Work in compliance with their submitted Safety Plan, Federal and State requirements, Contract provisions, applicable laws and regulations of OSHA when required or to substantially meet other contractual requirements will be considered a violation and may result in the following actions:

All Incidents: The Contractor will immediately eliminate all unsafe conditions brought to the Contractor's attention by the Department or any other representative of the Department. The Department reserves the right to suspend the work at any time and request a meeting to discuss violations and remedies. The Department shall not be held responsible for any delay in the work due to any suspension under this item.

1st Incident: If the Contractor has previously received a verbal warning for the same or similar unsafe conditions or does not take corrective action immediately upon receipt of verbal warning, the Department will issue a written warning.

2nd Incident: The Department may (A) give written Notice of Default to the Contractor and immediately terminate the Contract by written Notice of Termination, or (B) take prosecution of the Work away from the Contractor without violating the Contract. Such Contractor will be prohibited from submitting a Bid for the Work in the event that the Work is re-advertised. Further, the Department may refuse to accept any Bid from the Contractor on any Project for a period of two years from the date of such refusal. The Department may then take any action that the Department determines is in the best interest of the Department including re-advertising the Work.

SPECIAL PROVISION
SECTION 107
Prosecution and Progress
(Contract Time, Limitation of Operations & Liquidated Damages,)

Contract Time the Contractor will be allowed to commence work on or after the begin dates shown in the table below and must complete the Work in each location by the end dates for crushing as shown in the table below. Upon mutual consent of the Department and the Contractor, an earlier begin date may be agreed upon. In the case of a different beginning date, the total number of Calendar Days allowed will remain the same, and the new authorized end date will be adjusted by Contract Modification.

| Region | Location | Begin | End |
|-----------------|-------------------------------------------------------|---------------------|---------------------|

| Region 4 | Enfield DOT Lot GPS: 45.233372, -68.638801 | May 11, 2026 | May 22, 2026 |
| | | | |

The specified per diem rate for Liquidated Damages is **\$500.00** per Calendar Day. All Work must be Complete by each Completion Date, as specified in the Contract, or any authorized revisions. The Contractor shall owe the Department Liquidated Damages for every day past each Completion Date the Work is not complete. This amount will be deducted from any money due the Contractor under the Contract, and the Contractor will be liable for any Liquidated Damages in excess of the amount due.

By executing the Contract, the Contractor acknowledges the difficulty of making a precise determination of damages due to completing the work beyond the designated completion dates, acknowledges that such an amount is not a penalty, agrees to the amount stipulated in the contract that will be charged against the Contractor for each calendar day that the work remains uncompleted after each designated completion date, agrees that the daily amount set forth in the Contract is a reasonable per diem forecast of damages incurred by the Department due to the Contractor's failure to Complete the Work by the Completion Dates, and agrees to stipulate to their reasonableness in any suit for the collection of or involving the assessment of said damages. The damages referred to herein are intended to be and are cumulative and will be in addition to every other remedy now or hereafter enforceable by law, in equity, by statute, or under the contract.

Permitting the Contractor to continue and finish the work or any part thereof after the completion date shall in no way operate as a waiver on the part of the Department of its rights to assess and recover Liquidated Damages, or any other rights, under the Contract.

Completion of Physical Work occurs when the Work is complete and has undergone a successful final inspection. Liquidated Damages will cease upon the physical completion of the Work.

SPECIAL PROVISION

During the Crushing process, the Contractor shall uniformly blend stockpiles. The Contractor shall not add water to the material in the Crushing process unless authorized by the Department. The Contractor shall construct stockpiles using a conveyer, so that equipment is not driven onto a freshly crushed pile. The minimum pile height shall be 25 feet at the top of a completed pile in its final location, ready for measurement, unless otherwise directed by the Department. Due to limited storage area at some stockpile locations, the final product shall be higher than normal to ensure the Pugmill operations will have adequate space for their operations. The Contractor shall stack the processed RAP in a stockpile (or stockpiles) with the top of the pile shaped as to not trap water or drain directly back into the processed pile. The Department may sample for verification and approval.

Progress Payments The Department will estimate the amount of Work performed at least monthly and at completion of the Work and make payment based upon such estimates. Estimates may be paid once every two weeks if, in the opinion of the Department, the amount of Work performed is sufficient to warrant such payment. No such estimates or payment will be made if, in the judgment of the Department, the Work is not proceeding in accordance with the provisions of the Contract.

The Department may withhold payments claimed by the Contractor on account of:

- A. Defective Work or non-conforming Work,

- C. Failure to provide the Department the opportunity to inspect the Work,
- D. Damage to a third party,
- E. Claims filed or reasonable evidence indicating probable filing of claims,
- F. Failure of the Contractor to make payments to Subcontractors or for Materials or labor,
- G. Substantial evidence that the Project cannot be completed for the unpaid balance,

Retainage The Department will pay 100% of each approved Progress Payment until the Work is approximately 50% complete. Thereafter, the Department may deduct 5% of the amount of each Progress Payment as retainage. In the event that the Department believes that the retainage will be insufficient to cover the Contractor's obligations under this Contract, the Department may withhold a greater percentage of the money to cover Contractor obligations. The Department may hold, temporarily or permanently, retainage as needed to assure timely Completion of the Work and payment of all Subcontractors and Suppliers in Conformity with the Contract.

Contractor's Safety Program If a copy of the Contractor's Safety Plan is not on file with the Contracts Section of the Department, the Contractor must submit, prior to Contract award, a Safety Plan to the Department. The Contractor's Safety Plan shall identify and address job hazards of the expected contract work and shall comply with all applicable federal, State, and local laws governing safety including all applicable laws and regulations of OSHA.

Changes The Department may increase or decrease Pay Item quantities from the estimated quantities shown in the Bid Documents, and such increase or decrease shall not be considered Extra Work. Except as expressly provided otherwise in this Contract, the Contractor shall be paid for actual quantities as measured or agreed to in accordance with “Method of Measurement” at the Unit Prices contained in the Contractor’s Bid. The Contractor accepts such payment as full and complete compensation.

Force Account Work Compensation for Force Account Work will be computed according to State of Maine, Department of Transportation, Standard Specifications, Section 109.7.5.

Termination, Failure to Perform and Default The Contractor is in Default of the Contract if the Contractor:

- A. Fails to provide labor, Equipment or Materials specified in the Contract,
- B. Fails to perform the Work with sufficient labor, Equipment, or Materials to assure the timely Completion of the Work,
- C. Fails to perform Work when specified in the Contract,
- D. Performs Defective Work, neglects or refuses to repair or correct Unacceptable Work when directed by the Department,
- E. Becomes insolvent or is declared bankrupt or commits any act of bankruptcy or insolvency that could affect the Work in any way,
- F. In any other manner, fails to perform the Work in Substantial Conformity with any material provision of the Contract.

Failure by the Contractor to perform the Work when required or to substantially meet other contractual requirements will result in the following actions:

- 1st Incident: If the Contractor does not take corrective action within 7 days upon receipt of verbal warning, the Department will issue a written warning.
- 2nd Incident: The Department will issue a written warning.
- 3rd Incident: The Department may (A) give written Notice of Default to the Contractor and immediately terminate the Contract by written Notice of Termination, or (B) take prosecution of the Work away from the Contractor without violating the Contract.

If Default occurs, the Department may give written Notice of Default to the Contractor. Failure to give Notice of Default is in no way a waiver by the Department of any provision of the Contract. In this event, the Department may enter into an Agreement with another entity for the Completion of the Work or use such other methods as in the opinion of the Department are required for the Completion of the intent of the Contract in an acceptable and timely manner. Termination of the Contract or portion thereof shall not relieve the Contractor of its Contractual responsibilities for the Work completed (including warranty obligations), nor shall it relieve the Surety of its obligation for claims arising from the Work or the Contract. The Department will pay for all Accepted items of Work as of the date of Termination at agreed upon prices. The Contractor shall make all Work records available to the Department upon request regarding payment under this Section.

Method of Measurement Crushing will be measured by the cubic yards of material crushed and accepted.

The original piles' top surface will be surveyed. The material will then be crushed and stockpiled at a designated location on the existing lot. Following the completion of the Crushing, the department's survey crew will then survey the bottom of the original piles. The original pile top surface quantity minus the bottom pile quantity will then be calculated by the Department and paid by the cubic yard.

Basis of Payment The accepted quantity of Crushing Services will be paid for at the contract unit price per cubic yard, which shall be full compensation for furnishing and operating the crushers, conveyor, excavator, loaders and all labor, equipment and materials necessary to Crush the material and perform the work and furnish acceptable material under this item.
