NOTICE TO CONTRACTORS - PREFERRED EMPLOYEES

Sec. 1303. Public Works; minimum wage

In the employment of laborers in the construction of public works, including state highways, by the State or by persons contracting for the construction, preference must first be given to citizens of the State who are qualified to perform the work to which the employment relates and, if they can not be obtained in sufficient numbers, then to citizens of the United States. Every contract for public works construction must contain a provision for employing citizens of this State or the United States. The hourly wage and benefit rate paid to laborers employed in the construction of public works, including state highways, may not be less than the fair minimum rate as determined in accordance with section 1308. Any contractor who knowingly and willfully violates this section is subject to a fine of not less than \$250 per employee violation. Each day that any contractor employs a laborer at less than the wage and benefit minimum stipulated in this section constitutes a separate violation of this section. [1997, c. 757, §1 (amd).]

SPECIAL PROVISION
SECTION 103
AWARD AND CONTRACTING
Basis of Award

Bids (quotes) are requested for all 5 Regions in the state. The Regions are further subdivided into nine (9) zones (Zone 3 excluded - none needed). Maps are included that display the Regions. The zones are described in the schedule of items. A Bidder is not required to bid all zones, and may bid on one or more Zone(s).

The dollar amount of this Contract does not guarantee that the Department will assign Work for any or all of the total amount.

The Department and the responsive bidders with the lowest three bids in each zone may enter into a Contract that will obligate each bidder to perform work pursuant to Assignment Letters at prices listed by the bidder in the Schedule of Items depending upon the needs of the Department and according to the following terms. Work will be assigned under these contracts according to the following process: The Contractor with the lowest bid for the particular Work (the "Assignment") will have first option to perform work pursuant to an Assignment Letter. If this Contractor is unable to accept the work, then the Department will contact the firm that submitted the next lowest bid to see if that Contractor will accept the Assignment and subsequent Contractors in ascending order of the amount of their bids, until a Contractor accepts the Assignment. Upon mutual agreement, an Assignment Letter will then be sent to the successful contractor. The Work described in this letter will become part of the Contract.
