Basis of Award and Assignments

The Department may award contracts to all responsive, responsible bidders that have the ability to respond in a timely manner and are experienced/qualified and meet “Contractor requirements”.

The dollar amount of this Contract does not guarantee that the Department will assign Work for any or all of the total amount.

The Department and each responsive Bidder may enter into a Contract that will obligate each Contractor to perform work at prices listed by the bidder in the Schedule of Items depending upon the needs of the Department according to the following terms. Work will be assigned under these contracts according to the following process: The Department will estimate the Contractor with the lowest cost for the particular Work (the “Assignment”) based on the individual unit bid prices for the total quantity of estimated work in that Assignment. **The Department will offer to assign the Work to the Contractor with the lowest cost for the particular Work (the “Assignment”)**, that indicated willingness to work in the assignment location, with the ability to perform the Work, and that Contractor will have first option to perform work. The Contractor with the lowest cost may not be offered the work first when consideration for Maine business enterprises results in low cost bids not being considered as the best-value for the State of Maine. Contractors are not required to accept work. If Contractors do not respond to requests for assignments in the allotted time, The Department shall proceed as if the Contractor has declined the assignment. If this Contractor is unable to accept the Assignment, respond in the necessary and appropriate time for the Assignment, complete the Assignment in the allotted time, or does not have the equipment, experience or ability to complete the Assignment, then the Contract Administrator will contact the firm that is estimated to have the next lowest assignment cost to see if that Contractor will accept the Assignment and subsequent Contractors in ascending order of the amount of their bids, until a Contractor accepts the Assignment. The Department will estimate for a particular Assignment based on the individual unit bid prices for the total quantity of estimated work in that Assignment. The Department and the Contractor shall mutually agree to quantities and schedules prior to the Contractor beginning the Assignment. Contractors are not required to accept all assignments offered. The Contractor shall respond in a timely manner in accordance with a schedule approved by the Department. The Contractor shall notify Contract Administrator, prior to working at any facility.

In the case an emergency arises for which the response time does not allow for the preparation of a bid solicitation, that the Department has determined the work required can best be addressed using one of these contracts, the Department will contact one or more of the Contractors. The Department will select a Contractor to call based on an evaluation of rates, experience and equipment, willingness to perform work in the applicable county, geographic proximity, response time, consideration of Maine business enterprise, and determination of what is in the

best interest of the State. The Contractor shall have a half hour to accept or decline. The Contractor shall be onsite in less than three hours unless the Department has directed otherwise.

Not all plumbing services will be done under these contracts. These Contracts will not include Work that falls under Capital Work Plan or Program projects, moveable bridges, separately advertised projects, snow and ice equipment maintenance and repair or Ferry/Marine services. Work may also be done by the Department. Emergency Work may be done by other means not associated with this solicitation.

Bidders shall ensure that all information required herein is submitted. Provision of inaccurate information or failure to provide all completed and required information may result in the Bidder being determined to be "Not Qualified" or disqualified as non-responsive. Within 14 days, the Department will review the submissions and determine if the available evidence or information satisfies the Department requirement that the bidder is qualified to properly carry out the terms of the Contract. The Department reserves the right to communicate in writing with Bidders, if needed, to obtain additions to and/or clarification of information contained in the submittals received. The Bidder shall have 3 days to submit additions and clarifications. The Bidder will have no additional opportunity to submit or clarify information. The Department will not provide an opportunity for the Bidder to meet to present evidence.

The qualifications submitted will be checked for general conformance with the concept of the project and compliance with the requirements set out in the Contract Documents. This review does not modify the Contractor's duty to comply with the Contract documents. No review or comment by the Department, or any failure to review or comment, shall absolve the Contractor of its responsibility or to shift any responsibility to the Department.

Based on these submissions, the Department will make one of the following determinations:

1. Qualified - The Contractor has satisfied the post-bid, pre-award qualification requirements and demonstrated to the Department's satisfaction that it is responsible, can meet the Contractor Requirements set forth in this contract, and is qualified to perform this type of work.
2. Not Qualified - Bidder is not qualified to properly carry out the terms of the Contract and/or the submission does not meet specifications and accepted standards and is not acceptable, as determined by the Department.

There is no Appeal process and the determination of "Not Qualified" is final. The Department will reject the bid as non-responsive, and the Award process will proceed without the unqualified Bidder.

The Department will notify the Bidder of its determination in writing. If a determination of "Not Qualified" is rendered, the notice will set forth reasons to the extent practical. Such reasons may include the following:
