"FedEx First Overnight" delivery is suggested as the package is delivered directly to the DOT Headquarters Building, Mailroom, 24 Child Street, Augusta. Schedule. The Contactor shall provide equipment, as needed by the MaineDOT. The MaineDOT will usually notify the Contractor at least 24 hours prior to scheduled contract work.

Performance. The MaineDOT reserves the right to inspect the equipment and reject because of condition, and the Contractor shall have the option to replace the equipment with another acceptable, equivalent unit or the MaineDOT may assign the work to another Contractor. Condition deficiencies may include, but are not limited to, equipment with excessive wear, broken parts, low hydraulic pressure, below standard operation, equipment that is not OSHA compliant or equipment with leaks that can get to the pavement, ground or into surface water.

The Contractor shall perform all repairs, service and scheduled maintenance, except damage caused by the MaineDOT. All costs for labor, equipment and materials required to perform the work will not be paid for directly and will be considered incidental to the Equipment Rental pay item(s).

For equipment requiring frequent repairs, defined as more than five (5) working days (or any part thereof) within a 30-day period, the Contractor shall perform repairs to reduce repetitive breakdowns or may furnish an acceptable, equivalent replacement. In the case of delayed maintenance that affects performance, or if a piece of equipment is unable to run, is unsafe to operate or should not be run as determined by the MaineDOT, the Contractor shall repair the equipment promptly, or replace the

equipment with another acceptable, equivalent unit. Failure to take acceptable corrective action may result in the MaineDOT assigning the Work to another Contractor.

In the event of a breakdown requiring repairs placing the equipment out of service for longer than three (3) working days, the MaineDOT and the Contractor may agree to a repair schedule or the MaineDOT may assign the Work to another Contractor.

As compensation for time lost due to breakdowns, repairs, or other mechanical related delays, the MaineDOT may choose to extend the return date by an equivalent duration or choose to receive a credit. The credit will be deducted from the amount owed for the number of days, in excess of one (1), that the equipment was unable or unsafe to operate. The daily credit shall equal 4% of the monthly bid price.

If, a Contractor furnishes unsatisfactory equipment, the MaineDOT may issue a written warning. If the Contractor subsequently furnishes unsatisfactory equipment, the MaineDOT reserves the right to immediately terminate the Contract by written Notice of Termination.

Measurement and Payment. The MaineDOT will measure and pay for equipment rental at the units and rates determined in Appendix A of the “Private Equipment Rental Agreement”. Time spent servicing and maintaining will not be measured for payment.

Prior to assigning work, the MaineDOT and the Contractor shall mutually agree to the assignment location(s), dates, time, duration, and criteria establishing payment hours.

Quantities to be measured for payment will be determined by the MaineDOT. Hourly measurements will be made to the nearest ½ hour.

Hourly work will be measured for payment in accordance with the criteria for payment hours established at the time the Contractor accepted the assignment and the contract.

This criteria for the hour at which payment begins could include:

- the scheduled show up time,
- the time the Contractor was on site and ready to work,
- the time physical work under this contract commenced,
- or other such time determined by the MaineDOT.

This criteria for the hour at which payment ends could include:

- the scheduled time,
- the time when work under this contract was done for the day,
- or other such time determined by the MaineDOT.

At the MaineDOTs discretion, the Contractor may be paid for hours spent in requested standby, for hours not worked during a scheduled day due to delays and schedule changes caused by the MaineDOT, and other circumstances for which the Contractor may be due compensation.

If scheduled equipment rental contract work is cancelled by the MaineDOT after 5:00 pm on the preceding day, the MaineDOT may pay the Contractor for 2 hours for the day on which scheduled work was canceled.

Equipment down time resulting from equipment failure will not be measurable for payment and not be included in payments for the day's work. The number of work hours will be reduced to exclude the down time. The minimum reduction shall be one-half hour.

The MaineDOT will pay an emergency callout at the hourly rate of three (3) times the bid hourly rate. This includes weekends, holidays, weekdays not under hire by the MaineDOT, and after hour emergency callouts. Equipment rental during an emergency will be measured for payment beginning no earlier than the time directed by the MaineDOT to send equipment to emergency site and end when the equipment is done as directed by the MaineDOT.

MaineDOT will determine if a callout is an emergency prior to assigning the work. An emergency is defined as an immediate need to protect the health and safety of the traveling public. An emergency may be caused by but not limited to an accident, natural disaster or unexpected incident.

The MaineDOT will pay for accepted quantities of equipment at the contract unit price. There will be no limit on hours.

The properly completed and signed Private Equipment Rental Agreement – Without an Operator form provided with the Bid constitutes the Bidder's offer.
