Subject: **Portland**
Federal Project No: STP-5136(30)X
State Pin No: 005136.30
Amendment No. 2

Dear Sir/Ms:

Make the following change to the Bid Document:

In the Bid Book (page 79), "SPECIAL PROVISION, SECTION 602, LIGHTWEIGHT FOAMED CONCRETE FILL", at the end on section "602.302 Materials" **ADD** the following paragraph in pen and ink;

"The decorative coating to be applied to the asphalt primer shall be a washed stone dust or washed manufactured sand containing no more than 3.5 percent passing the #200 U.S. Standard Sieve and being light gray in color to visually blend with the Prefabricated Concrete Modular Gravity Wall that is provided in accordance with Special Provision 635, or an approved equivalent."

The following question has been received:

Question: We have received the response to our decorative coating question through addendum 1 – reference question 6 and response. The answer stated that the information was available in section 602.302 last paragraph. We are concerned that we do not have the correct special provision 602.

Response: Please see the above pen and ink change.

Consider this change and information prior to submitting your bid on **April 27, 2011.**

Sincerely,

For Scott Bickford
Contracts & Specifications Engineer
