Dear Sir/Ms:

The following question has been received:

**Question:** Would you list your possible suppliers for Evergreen Trees? Spring is the better time to plant due to area (rather than evergreens in fall). Also requesting rough planting locations and directions for a site visit?

**Response:** MaineDOT does not maintain a list of suppliers for nursery materials. Caribou is located approximately 60 miles north of Houlton and the project is new construction, between existing rte. 89 / rte. 1 and rte. 161. Most of the trees to be planted are located near the west end of the project nearest to the Rte. 161 intersection.

Consider this information prior to submitting your bid on May 2, 2012.

Sincerely,
