August 1, 2011  
Subject: **Falmouth**  
Federal Project No: HP-1563(300)E  
State PIN: 015633.00  
**Amendment No. 1**

Dear Sir/Ms:

The following questions have been received:

**Question:** Reference Bid Item 527.34 Work Zone Crash Cushions. Will the Crash Cushions need to be sized for the posted ramp speed or for the mainline highway speed?

**Response:** The Crash Cushions referenced as Bid Item 527.34 need to be sized for the mainline highway speed.

**Question:** Will work be allowed to be completed behind the permanent concrete barrier during day time hours or does it need to be completed at night during the temporary lane closures of 7:00PM to 6:00AM?

**Response:** Yes, work behind the permanent concrete barriers can occur at any time. Only work requiring the Temporary Closure of either of the two (2) mainline travelways, or the Ramp; will need approval, and to take place between the hours of 7:00pm and 6:00am, as Specified in Section 107. As long as no lane closures are required, work can be conducted without restriction to time of day.

Consider this information prior to submitting your bid on August 3, 2011.

Sincerely,

Scott Bickford  
Contracts & Specifications Engineer
