Subject: **Augusta**
Federal Project No: IM-1631(310)E
State WIN: 016313.10B
Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: The scope of work lists well abandonment as part of the work to be performed. Is there a drawing showing the well location and is there any information as to how deep the well is and what diameter it may be?

Response: There is no drawing showing the well location but it is located behind the garage. Depth of the well is unknown, it is a drilled well with steel casing.

Question: On page 35 of the proposal Book it states that the Contractor must submit a Traffic Control Plan. Is a traffic control plan necessary for this project?

Response: A Traffic Control Plan is not necessary.

Question: Are Performance & Payment Bonds required?

Response: Per the Notice to Contractors; "A Contract Performance Surety Bond and a Contract Payment Surety Bond, each in the amount of 100 percent of the Contract price, will be required of the successful Bidder."

Question: Please clarify the areas to receive loam and seed.

Response: All disturbed areas including driveway will receive loam, seed and mulch.

Question: Does the existing gravel driveway stay in place?

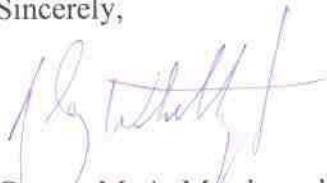

PRINTED ON RECYCLED PAPER

Response: No, the existing driveway material may be used as fill in the foundation areas then loam, seed and mulch the old driveway.

Consider this information prior to submitting your bid on December 5, 2012.

Sincerely,

for

George M. A. Macdougall P.E.
