Subject: **Washington**
State WIN: 017107.00
Amendment No. 1

Dear Sir/Ms:

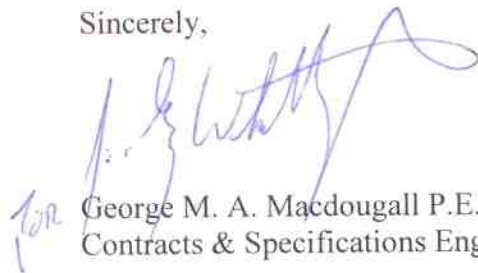

The following question has been received:

Question: Due to the small volume of material and tight gradation tolerances of 7, can ¾" stone be used around the 15" UD for item 605.12 in lieu of Type C underdrain "Crushed or Uncrushed Backfill Material" as specified in 703.22?

Response: All material used in the Type C underdrain shall meet the requirements of 703.22. No substitutions will be allowed.

Consider this information prior to submitting your bid on September 5, 2012.

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
