Federal Project No: STP-1728(310)X
State PIN: 017283.10
Amendment No. 1

Dear Sir/Ms:

The following question has been received:

Question: Special Provision #635 Precast Concrete Block Gravity Wall 635.01 Description, paragraph 2 states, "geotechnical design of any wall with an exposed height greater than 4.5 feet or as specified on the plans". The walls shown on Sheet 6 are 4.5 ft or less but note 1 implies a stamped licensed engineer's plan is required. Is a licensed wall design required for PIN #017283.10?

Response: A geotechnical design and stamped wall plan are required.

Consider this information prior to submitting your bid on July 13, 2011.

Sincerely,

Scott Bickford
Contracts & Specifications Engineer
