State Pin No: 017514.13
Amendment No. 1

Dear Sir/Ms:

The following questions have been received:

Question: There is a note on sheet 3 of 4 for the striped cross walk. It states that each bar is to be ground to .25" per dimension for each. Is this the intent? From what Flint Trading is telling us, by grinding the pavement there is a good possibility the paint will not adhere due to dust and other debris. I was just checking to see if it is the intent to have each bar ground, or can the asphalt be heated and then stamped?

Response: Please grind and blow out debris, then install material

Question: Item 627.94, details call for grinding prior to installation of the product. The representative at Flint Trading does not recommend grinding, but imprinting either the existing pavement, or preferably new pavement prior to product installation. Could you please clarify?

Response: Grind please

Consider this information prior to submitting your bid on December 29, 2010.

Sincerely,

Scott Bickford
