Dear Sir/Ms:

The following questions have been received:

Question: Item 203.242, Dirty Borrow. Where is the Dirty Barrow being placed? And if it is being used as shoulder material, how wide is it being placed and to what thickness?

Response: The intent of this item is to be used to back up the pavement. The estimated quantity was figured using a width of 3' and a depth of 3"

Question: Item 411.10, Untreated Aggregate Surface Course. Where is this item being placed? Driveways, side roads, etc.?

Response: Yes

Question: Item 403.29, Is this item being used only on paved driveways and gravel 3 FT. lips?

Response: Yes

Question: Item 403.211, how many different (locations) spot shims are there going to be that total 700 tons?

Response: Quantity was based on approximately 20 different locations. The actual quantity and number of locations will be determined in the field by the Resident.

Question: General Note #11 – If any underdrain work needs to be done, ditching, ends cleaned, and or replaced, is this paid for under the appropriate equipment rental items?

Response: Yes
