Amendment No. 2

Dear Sir/Ms.:

The following questions have been received:

Question: While reviewing the Schedule of Items and the project plans, it was noted that some lines on the plans state "STUMP" and in Section 201 item #6 references Stumps being marked by the Department. However, stumps are not listed on the Schedule of Items. Are there stumps to be ground down as part of this work?

Response: Stumps that will need to be ground down are not currently marked. Stumps that could present a traffic safety issue will need to be ground down. The project Resident will determine which stumps will need to be ground down.

Question: will MaineDOT personnel be keeping track of the daily counts for completed work or will this be the contractors responsibility?

Response: The MaineDOT project Resident will track all items for payment.

Consider these changes and information prior to submitting your bid on **September 6, 2023**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".
