Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: Can the Department share more information or the intent around the Special Provision 105 section talking about landowner parcels and not doing work on those properties until after the 15th of September? Does the right of way affect the shoulder work operations or any other work?

Response: MaineDOT expects to have property rights to complete slope and entrance grading outside the existing easement rights by September 15th. The property rights that MaineDOT currently possess do not impact the Contractor's ability to perform work within the existing highway limits to include all mainline and shoulder paving and curb removal.

Question: Would the Department allow the contractor to keep the remaining millings from the project to be utilized in the HMA?

Response: The Contractor may retain millings for the production of HMA on this project. All remaining millings will become property of the State of Maine. Please make this change in pen and ink.

Consider these changes and information prior to submitting your bid on **June 12, 2024**.

Sincerely,

A handwritten signature in blue ink that reads 'George Macdougall'.
