Subject: Crack Sealing
State WIN: 018995.55
Location: **Region 5**
Amendment No. 1

Dear Sir/Ms.:

The following question has been received:

Question: Will Maine DOT allow the use of the Fiber Modified Asphalt Compound as an alternate material as described in Maine DOT Standard Specification Item 424.3331? It is expected that the guidelines for installation within the Bid for Item 424.24 would be followed.

Response: Please see the new Special Provision 424 – Polymer Modified Asphalt Crack Sealant with Fiber on pages 45-52 of the Bid Book. The Contractor has the option of utilizing this material instead of the Type 4 crack seal. Whatever option the Contractor utilizes will be paid under Item No. 424.24.

Consider these changes and information prior to submitting your bid on **March 2, 2022**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".

George M. A. Macdougall P.E.
