State WIN: 019187.00
Amendment No. 2

David Bernhardt
COMMISSIONER

Dear Sir/Ms:

The following questions have been received:

Question: There is a limited reveal on all of the existing granite curb including curb not designated to be removed and reset. Since the grade is going to be raised, will all of the curb be required to be removed and reset? If so, what work will be required to match the existing sidewalk to the new curb elevation?

Response: Because the cross slope on the existing shoulders does not currently meet the Department standard, and will have to be returned to a standard, the Department does not anticipate the need to remove and reset all the curb. All efforts will be made in the field to assure minimal curb reveal.

Question: What is the existing pavement depth on this project?

Response: Existing depth of mainline pavement is 7" +/-.

Consider this information prior to submitting your bid on May 23, 2012.

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
