Amendment No. 2

Dear Sir/Ms.:

The following questions have been received:

Question: The ACOE permit cover letter on page 234 of the bid book, condition number 2 indicates that there are no in-water work restrictions. The application does not indicate any impacts. Specification 105 (Environmental indicates an in-water work window. Please advise.

Response: Sometimes one agency will have more restrictive requirements than another. The in-water work window of July 1 – April 15 was required by U.S. Fish and Wildlife Service as part of the Section 7 consultation, included on page 260 of the bid book. This work window will supercede ACOE.

Consider these changes and information prior to submitting your bid on **February 14, 2024**.

Sincerely,

A handwritten signature in blue ink that reads 'George Macdougall'.
