Subject: Mattagodus Bridge Replacement

State WIN: 022266.00

Location: Webster Plantation

**Amendment No. 2**

Dear Sir/Ms.:

The following questions have been received:

**Question:** The army corp permit in-water impact locations show a cofferdam for rip rap installation. Plan sheet 4 of 30 shows the entire streambed being reshaped. This work will be outside the Temp RUS permitted impact area as shown in the army corp permit. Does the streambed reshaping excavation work need to happen within a cofferdam and if so what are the allowable impact areas?

**Response:** Disregard the "Proposed Streambed" line and label shown on the Profile drawing on Plan sheet 4 of 30. Reshaping the streambed is not necessary.

Consider these changes and information prior to submitting your bid on **May 10, 2023**.

Sincerely,

George M. A. Macdougall P.E.  
Contracts & Specifications Engineer
