Bruce A. Van Note
COMMISSIONER

April 2, 2019
Subject: Pavement Milling, Hot Mix Asphalt
Overlay with Drainage Improvements
State WIN: 022436.00
Location: Northport
Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: The Construction Notes for item 202.202 Removing Pavement Surface indicate that "The milled pavement surface shall be milled to slope". Is it the Departments attempt to start with a 1 ½" cut on CL and mill towards the shoulder at the cross slopes shown on the cross slope sheet, or start on the shoulder and work to CL?

Response: The Department's intent is to maintain a consistent cut of 1.5" at the edge of Travelway and correct cross slopes as specified in the project bid documents or as directed by the Resident.

Question: Will the Department allow the contractor to retain 100% of the millings

Response: As stated in Construction Notes 50% of the Millings/Grindings will remain the property of the Department and be delivered and stockpiled at the Northport Maintenance Camp at 116 Atlantic Highway for use by the Department on future projects.

Consider these changes and information prior to submitting your bid on **April 3, 2019**.

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
