Amendment No. 1

Dear Sir/Ms.:

The following question has been received:

Question: Special provision 107 states "Work will only be allowed from 7pm to 6am Sunday night through Saturday morning." Is it truly the intent of this project to do all work at night? This seems rather over the top and will be inefficient and costly. Would the Department consider changes such as a closure length restriction for daytime work and/or having the section in Randolph near the traffic light and bridge be done at night, and the rest be completed during the day?

Response: The Department's Traffic Analysis and Movement Evaluation process determined that project should include the requirements listed in Special Provision 107. This analysis is based on traffic volume and other factors. The current Special Provision 107 will remain as written.

Consider these changes and information prior to submitting your bid on **April 10, 2019**.

Sincerely,

George M. A. Macdougall P.E.
