Dear Sir/Ms.:

The following question has been received:

**Question:** Do the in stream requirements for pile driving apply to driving pile inside a cofferdam?

**Response:** SPECIAL PROVISION – SECTION 105 - General Scope of Work - (Environmental Requirements), Section IV applies to in-water pile driving. If the pile driving occurs in the dry or in a dewatered cofferdam, the in-stream requirements do not apply.

Consider these changes and information prior to submitting your bid on **October 7, 2020**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".
