Subject: Highway Safety & Spot
Improvements
State WIN: 022877.00
Location: **Hermon**
Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: The specification calls for a TS2 type 2 cabinet and TS2 type Controller. Typically, MaineDOT specifies a TS2 type 1 cabinet and controller. Please confirm that a TS2 type cabinet is required with a TS2 type Controller.

Response: The requirement is TS-2 Type 2, as per Note #1 of Traffic Signal Notes on Sheet 3 in the Contract Plan Set.

Question: Can you clarify the requirement for a pedestal base? Is this a cabinet extension base or a transformer base?

Response: It will be a *pedestal-mounted traffic signal cabinet and foundation*, as per Note #1 of Traffic Signal Notes on Sheet 3 in the Contract Plan Set.

Consider these changes and information prior to submitting your bid on **January 9, 2019**.

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
