Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: Based on the project timeframe it does not appear that permanent pavement can be completed in 2026. Nor is there an item for temporary HMA. Please advise how paving of the project will be handled and the winter maintenance responsibility of route 141 by the contractor.

Response: The Resident will determine when pavement is complete and accepted by the Department. The contractor will not have winter maintenance responsibility. Permanent pavement will be applied in 2027 under a separate contract.

Consider these changes and information prior to submitting your bid on **August 12, 2026**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".
