Dale F. Doughty
COMMISSIONER

August 4, 2026
Subject: Slope Stabilization
WIN:023012.00
Location: Swanville
Amendment No. 2

Dear Sir/Ms.:

The following questions have been received:

Question: Are existing stairways in proposed Rip-Rap slopes to be reinstalled? If so, how will that work be paid?

Response: No.

Question: At the structure removal STA 137+35 there are several very large existing rocks. Will those be required to be removed or can they stay in their existing locations?

Response: Rock removal is not required providing the work is completed to the satisfaction of the Resident.

Question: Are trees to be removed allowed to touch the Swanville Lake Water after felling?

Response: The contractor is expected to keep trees and debris out of the adjacent lake but incidental contact is allowable but materials should be removed as quickly as practicable.

Question: How do I obtain a copy of the bid packet now that I am registered as a plan holder for this project. Thank you.

Response: Bid packet information can be found on the Maine DOT website, under Doing Business & Bid Opportunities

Consider these changes and information prior to submitting your bid on **August 12, 2026.**

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
