Location: Sinclair (T17 R4)
Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: This question is in regards to the road sign package - specifically the MI-5 sign requirement. The plans call for 45 inch wide x 36 inch high signs showing the Route number (162). The sign supplier indicated that for this type of sign package they would normally see a 30 inch wide x 24 inch tall sign as the larger sign is typically for interstate or highway use. Supplementary signs that go with the route number don't match up with the MUTCD - as larger route number signs require a 30 x 15 North/South sign and a 30 x 21 directional sign. Would the smaller sized route sign be acceptable for this project?

Response: Yes, the smaller-sized sign will be acceptable.

Consider these changes and information prior to submitting your bid on **February 25, 2026.**

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".
