Amendment No. 2**

Dear Sir/Ms.:

The following question has been received:

Question: Will the department allow day work if two way traffic is maintained through the work area?

Response: The Department will allow day work if the Contractor maintains two-way traffic at all times per Standard Specifications Section 652.3.6. The Contractor's Traffic Control Plan (TCP) shall address access and egress from sideroads and private entrances in areas where day work two-way traffic will be utilized. If turning traffic impacts traffic flow within the two-way traffic work area and cannot be addressed, the Contractor shall stop day work and work nights in the impacted areas.

Consider these changes and information prior to submitting your bid on **June 24, 2020**.

Sincerely,

A handwritten signature in black ink that reads "George M. A. Macdougall".
