Question: Are the gravel driveways staying gravel?

Response: Gravel drives will remain gravel. They will receive a 3-foot paved apron as stated in general note #8.

Question: Can a track machine be used for the APE work?

Response: The use of a track machine is allowed with the following caveats:

- Track machines cannot be utilized on new surface pavement
- Any damage caused will be the Contractor's responsibility to fix
- If damage is being caused, the Contractor may be required to work off plywood.
