COMMISSIONER

May 7, 2021
Subject: Large Culvert Rehabilitation
State WIN: 024289.00
Location: **Woolwich**
Amendment No. 1

Dear Sir/Ms.:

The following question has been received:

Question: Upon inspection of the job site we noticed that there is a beaver dam on the Inlet end of the pipe, what would the state like done with the beaver dam? Do we breach and let drain? Or pump over it?

Response: Do not breach the beaver dam. Pumping around the beaver may be required. The cost of pumping around the beaver dam will be incidental to Item No. 511.07 – Cofferdam.

Consider these changes and information prior to submitting your bid on **May 12, 2021**.

Sincerely,

A handwritten signature in blue ink that reads 'George Macdougall'.
