Bruce A. Van Note
COMMISSIONER

April 11, 2023
Subject: Pavement Milling, HMA Overlay
State WIN: 025143.00
Location: **Bar Harbor, Ellsworth, Trenton**
Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: With the variable shoulder widths on the project would the department consider allowing the contractor to pave shoulders wider than 4', that cannot be paved with UTBWC at the same time as mainline, to be paved with traditional 9.5mm HMA?

Response: The department would allow the use of a 9.5mm polymer surface mixture to be placed on shoulders in areas where a UTBWC spray paver may not typically reach the required width in one pass; normally 4 foot, and up to 5 foot shoulder widths. Payment shall be made under item 462.301 for any 9.5mm polymer surface mix placed on the shoulders.

The department may consider the use of a 9.5mm non-polymer mixture for use on the shoulders but would require a credit for the use of a non-polymer mixture.

Consider these changes and information prior to submitting your bid on **April 19, 2023**.

Sincerely,

A handwritten signature in blue ink that reads "George MacDougall".
