COMMISSIONER

March 1, 2023  
Subject: over height Vehicle Detection  
System on Route 1  
State WIN: 025319.00  
Location: **Brunswick**  
**Amendment No. 1**

Dear Sir/Ms.:

The following questions have been received:

**Question:** Per a supplier : "Based on my previous work with overheights in Maine - that pole behind the two Trigg detectors is a camera and LPR pole. Are we doing anything with that - or is that remaining and we just need to give them a closed contact out?"

**Response:** Each overheight detector location includes a closed circuit television (CCTV) camera and a license plate camera (LPC). As part of the system upgrade, the cameras at each overheight detector location shall be replaced as indicated on Plan Sheets 4, 6, 7, and 9. The new cameras will be paid for as a lump sum system under Item 654.211 for all new cameras installed. See Special Provision 654 Intelligent Transportation Systems (Closed Circuit Television System) for details.

Consider these changes and information prior to submitting your bid on **March 8, 2023**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".
