Subject: Traffic signal Modernization  
State WIN: 025321.00  
Location: **statewide**  
**Amendment No. 1**

Dear Sir/Ms.:

The following questions have been received:

**Question:** Is this bid to be awarded by line item, or can the CV2X RSU and OBU's be bid on separately?

**Response:** This bid is to be awarded as a cumulative award of all line items in the Schedule of Items. Items will not be awarded separately

**Question:** Is there a list of the plan holders that we can access for this RFP?

**Response:** The list of plan holders is on the page with the contract book and other contract documents.

**Question:** In order to promote competitive pricing and provide value to the State of Maine, would the project consider allowing an approved equal to Gridsmart for ITEM 643.21 NON-INVASIVE DETECTION - STOP LINE? Sole sourcing an item drives the purchase price well above that of a competitive bid.

**Response:** Miovision will be viewed as an equal to Gridsmart/Cubic provided there are no subscription/fee costs to be assessed to MaineDOT as referenced in Special Provision 643(.22) to access count data and other available operational measures of effectiveness.

Consider these changes and information prior to submitting your bid on **August 16, 2023**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".
