Subject: Traffic Signal Modernization
State WIN: 025321.00
Location: **Statewide**
Amendment No. 4

Dear Sir/Ms.:

The following questions have been received:

Question: Item 718.14 states that "The FMU shall be Applied Information model AI-500-085-04". Can the specification be revised to allow for Approved Equals for technologies that meet the specifications outlined under this item?

Response: FMU Approved Equals will be permitted upon demonstration that specifications under 718.14 are fully met. If a device is submitted as an Approved Equal, it is with the Contractor's understanding that the FMU shall be fully compatible with MaineDOT's existing web-based ATCC monitoring system and if not demonstrated as an equal with full compatibility than any costs associated with modifications to make the device fully compatible within the existing system shall be covered by the Contractor, including procurement of an Applied Information model AI-500-085-04 if it is found to be the only available option for full compatibility.

Consider these changes and information prior to submitting your bid on **August 30, 2023**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".

George M. A. Macdougall P.E.
