November 9, 2023  
Subject: Ferry Rehabilitation  
State WIN: 025921.00  
Location: **Raymond**  
**Amendment No. 2**

Dear Sir/Ms.:

The following questions have been received:

**Question:** Would you permit ASTM A123 specifications for the hot dip galvanizing? We were approved use of this specification on the pier steel channels; tidal submersed, and bearing plate brackets, for the MDOT Railroad Bridge Rehabilitation project completed 2019-2020.

**Response:** Please follow MaineDOT Standard Specification 506 – Shop Applied Protective Coating - Steel.

**Question:** Are the plans of the existing landing and ramp available?

**Response:** Existing plans are not available.

**Question:** Is Ferry Landing Road and the ferry terminal maintained for snow removal and surface treatment during the winter months?

**Response:** Yes, it will be maintained and kept clear for use by the Contractor.

Consider these changes and information prior to submitting your bid on **November 15, 2023**.

Sincerely,

A handwritten signature in blue ink, reading "George Macdougall".
