Subject: Culvert Replacement
State WIN: 025946.00 & 026227.00
Location: **Brooks**
Amendment No. 2

Dear Sir/Ms.:

The following questions have been received:

Question: Can you please advise on pipe #4:

Is there any special provision section 105 scope on this culvert? If not, are we supposed to carry traffic control for one way as it is installed or what was MDOT's thought on culvert installation process?

Response: Pipe #4 does not fall within the limits of the detour. The Contractor shall submit a Traffic Control Plan that meets the requirements of Section 652 of the Standard Specifications depicting how they wish to conduct their operations. Unless authorized otherwise, the Contractor shall maintain a minimum of one (1) 11' wide lane of alternating one-way traffic at all times. Nighttime alternating one-way traffic shall be addressed in the TCP and shall confirm with Section 652.6.2. All traffic control and maintenance of the traffic control devices, including the submittal of a Traffic Control Plan is incidental to Item 603.2790 72" Culvert Pipe Option II

Consider these changes and information prior to submitting your bid on **December 14, 2022.**

Sincerely,

Guy Berthiaume
