Subject: Highway Lighting at Exit 193
State WIN: 025999.00
Location: **Orono**
Amendment No. 2

Dear Sir/Ms.:

The following questions have been received:

Question: Are we to include in our pricing the cost to provide a camera lowering system along with the cameras that are to be mounted on the 55' wooden pole?

Response: Yes. A lowering system should be included.

Question: Sheet 6 indicates that station 5 has two A fixtures. Sheet 8 indicates that station 5 has two C fixtures. Which is correct?

Response: Sheet 6 has locations for High Mast (HM) locations 1 and 2 that have (2) A's and Sheet 4 has the HM location 5 that has (2) C's. Sheet 4 of the electrical plan corresponds with Sheet 8 of the boring location plan. Utilize Plan sheets 4, 5, & 6 for HM locations, luminaire types, conduit, and circuiting.

Question: Notes 44 on sheet E-2 give some broad specs on the video camera control cabinet and its components. We cannot find any other information in the plans. Can you provide more specific details on the control cabinet and its components?

Response: Special Provision 634 of the contract book contains the information for the camera system requirements.

Question: Are test boring logs available for this project?

Response: The boring logs are on plan sheet 11.

Consider these changes and information prior to submitting your bid on **January 31, 2024**.

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
