The following questions have been received:

Question: Are the drawings listed in the Special Provisions an accurate representation of the Anchorage Assembly. If so, are the 32 terminal ends on the project supposed to be attached to the end of the Anchorage Assembly instead of the buffer shown in the Anchorage Assembly drawing in Special Provision, Section 606, Guardrail, (Anchorage Assembly)?

Response: The 32 terminal ends are intended to replace the buffered ends shown in the details.

Consider these changes and information prior to submitting your bid on **August 2, 2023**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".
