Subject: Creation of a New  
Breakwater, Boat Launch & Parking  
Lot  
WIN:026824.00  
Location: Lubec  
**Amendment No. 4**

Dear Sir/Ms.:

Please **DELETE** the following response from Amendment No. 4 on the third page:  
“Response: The estimated settlement quantities shall be considered incidental.” And **REPLACE**  
it with the following: “The pay quantity of rock includes the estimated settlement quantities and  
will be paid for at the CY quantity installed under the contract.”

The following questions have been received:

**Question:** The most recent Addendum references the settlement quantities of rock listed on S-118 as incidental and not included in the pay quantities. This response differs from that given in Addendums during past bidding of this project, specifically WIN 026824.00 Addendum 2 dated 1/13/25 page 2. Based on the bid quantities, it appears that the settlement has been accounted for and is included in the pay quantity. Please confirm. Past response: " Yes, the pay quantity of rock includes the estimated settlement quantities in the tables on S-118".

**Response:** The pay quantity of rock includes the estimated settlement quantities and will be paid for at the CY quantity installed under the contract.

**Question:** There are bid items for Type A light standard and type B light standard that do not appear on the electrical plans. Where are these fixtures to be installed?  
Bid items 634.2042 list fixtures OC and T3 that do not appear on the electrical plans. Where are these fixtures to be installed?

**Response:** See Special Provision Section 634.056 New Lighting Fixtures:  
Type A Light Standard refers to Types R1 and P1 light fixtures, as indicated on the drawings.  
Type B Light Standard refers to Type R2 light fixtures, as indicated on the drawings.

Consider these changes and information prior to submitting your bid on **May 6, 2026**.

Sincerely,

George M. A. Macdougall P.E.
