Amendment No. 9

Dear Sir/Ms.:

The following questions have been received:

Question: Section 610.068 Resistance to Wear states “The percentage loss shall be less than 25% for heavy gradings and less than 30% for quarry run gradings.” Would the department consider changing both percentages to 35% for both gradings to allow the use of material from an established local quarry with active truck scales?

Response: No, 35% is not acceptable.

Consider these changes and information prior to submitting your bid on **January 29, 2025**

Sincerely,

A handwritten signature in blue ink that reads 'George Macdougall'.
