COMMISSIONER

June 24, 2024
Subject: Cathance River Bridge Substructure
Rehabilitation
State WIN: 027494.00
Location: Topsham
Amendment No. 2

Dear Sir/Ms.:

The following questions have been received:

Question: Please provide information on where traffic control devices are to be located (payment items 652.33, 652.34, 652.35, 652.361, and 652.38). If work can be performed without interrupting traffic flow, can traffic control devices be eliminated from scope?

Response: The Contractor is required to prepare and submit a Traffic Control Plan in accordance with the Contract. This plan will be reviewed by the Department for completeness and conformity with applicable standards, as outlined in the Contract. As a minimum, construction signs will be required to be installed and will, therefore, need to be maintained. The drum, cone and flagger items will be paid for only if they are authorized and used- see applicable Contract sections. Whether the drum, cone and flagger items are used will depend on the Contractor's accepted Traffic Control Plan. The items in question will not be eliminated from the Contract.

Consider these changes and information prior to submitting your bid on **June 26, 2024**.

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
