COMMISSIONER

February 5, 2025  
Subject: Large Culvert Repair  
Geopolymer Lining with Weirs  
State WIN: 028137.00  
Location: **Auburn**  
**Amendment No. 1**

Dear Sir/Ms.:

The following questions have been received:

**Question:** Will the State allow a segmental liner such as solid wall HDPE (Snap-Tite) or other that meets AASHTO structural requirements if the liner can meet the flow requirements?

**Response:** MaineDOT will allow a segmental liner such as solid wall HDPE (Snap-Tite) or other that meets AASHTO structural requirements if the post construction inside diameter is no less than the proposed geopolymer spray liner. Integrated weirs will be required. Any additional traffic control or mobilization would be at the expense of the contractor.

Consider these changes and information prior to submitting your bid on **February 12, 2025**

Sincerely,

George M. A. Macdougall P.E.  
Contracts & Specifications Engineer
