

STATE OF MAINE
DEPARTMENT OF TRANSPORTATION
16 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0016

Janet T. Mills
GOVERNOR

Bruce A. Van Note
COMMISSIONER

May 16, 2025
Subject: Ultra-thin Wearing Course
WIN: 028870.00
Location: **Farmington-Phillips**
Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: Could the department give locations for the 6" underdrain?

Response:

Add by Pen and ink to Construction notes on Page 56:

605.09 6" Underdrain Type B

Station (LT)

83+68 to 86+83

Question: In the areas where the spray paver will not fit, will the department allow the use of a conventional paver and 9.5mm polymer mix?

Response: The department would allow the use of a 9.5mm polymer surface mixture to be placed on shoulders in areas where a UTBWC spray paver may not typically reach the required width in one pass; normally 4 foot, and up to 5 foot shoulder widths. Payment shall be made under item 462.301 for any 9.5mm polymer surface mix placed on the shoulders. The department may consider the use of a 9.5mm non-polymer mixture for use on the shoulders but would require a credit for the use of a non-polymer mixture.

Question: Will the millings become property of the contractor?

Response: Yes, the millings will become the property of the contractor

Consider these changes and information prior to submitting your bid on **May 21, 2025.**

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
