Location: **Dixfield**
Amendment No. 3

Dear Sir/Ms.:

The following questions have been received:

Question: Since all the ceilings in the crew quarters buildings are gypsum drywall and wood framed, would it be acceptable to use Romex (NM-B) Cable in concealed applications?

Response: Using Romex (NM-B) will depend on whether it meets all local and state electrical codes for that application. Products that are to be used in the construction of the building, will be submitted and reviewed during the submittal process during the construction phase.

Consider these changes and information prior to submitting your bid on **February 18, 2026.**

Sincerely,

A handwritten signature in blue ink that reads 'George Macdougall'.
