Dale F. Doughty
COMMISSIONER

February 25, 2026
Subject: Supply & Installation of Boiler
State WIN: 030561.00B
Location: **Woodland**
Amendment No. 2

Dear Sir/Ms:

The following questions have been received:

Question: Is it just the boiler being replaced or does the air separator, pumps, etc. get replaced too?

Response: Please refer to the bid documents. See Bid Book Page 50-56 SPECIAL PROVISION Boiler Furnace Installation.

Question: Can we use the outside door in the boiler room for access?

Response: Yes.

Question: Can we change the boiler that was selected in this bid? This is not the correct boiler for the application. If we can't change the boiler we are not going to bid because you will have a premature failure due to the antifreeze in the system.

Response: Please see Bid Book page 50 SPECIAL PROVISION Boiler Furnace Installation Paragraph 2:

“Variations from Materials Specified Whenever and wherever items have been identified by describing a proprietary product, such identification is intended to be descriptive, but not restrictive, and is used to indicate the quality and characteristics of products that are satisfactory. Bids shall be considered as offering the item specified in the Invitation for Bid. The Department will consider all alternates submitted by the Contractor, but is not bound to accept any which, in its opinion, is not in the Department’s best interest and are determined by the Department to be of equal value in all material respects to the proprietary items specified. The evaluation of and determination as to equality of the product offered shall be the responsibility of the Department and will be based on information furnished by the Contractor, as well as information reasonably available to the purchasing activity.”

Consider this information prior to submitting your bid on **March 4, 2026**.

Sincerely,

George M. A. Macdougall P.E.
Contracts & Specifications Engineer
