COMMISSIONER

June 24, 2025
Subject: Boiler Installation
WIN: PH030561.00
Location: **Woodland**
Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: Does the new boiler require a dedicated chimney, or is it intended to be common vented with the existing or additional boilers?

Response: The existing boiler is being removed, and the two new boilers are intended to be vented with the existing chimney. The installed system shall meet all requirements of the Maine Fuel Board.

Question: Is it required or expected to replace any existing hydronic accessories, such as pumps, expansion tanks, or air separators, as part of the scope?

Response: No, boiler manufacturer-specific accessories required for your proposed equipment shall be provided for a complete, functional system.

Question: Will the new system require a new combustion air source, such as a duct, louver, or mechanical means?

Response: If your proposed system requires upgraded or improved combustion air source it shall be included. If the existing combustion air source is adequate for your proposed system, it shall be reused.

Question: Is it required or expected to replace the existing fuel tank or fuel lines serving the boiler, or are any other modifications to the fuel delivery system anticipated?

Response: No.

Consider these changes and information prior to submitting your bid on **July 09, 2025.**

Sincerely,

A handwritten signature in blue ink, reading "George Macdougall". The signature is fluid and cursive, with the first name "George" and last name "Macdougall" clearly legible.

George M. A. Macdougall P.E.
