Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: Will the regular shift facility employee be able to take care of sidewalks in small storms and help during larger storms?

Response: All walkways and sidewalks are the responsibility of the regular shift maintenance employees. These activities are part of the regular maintenance. If at any point this interferes with the schedule of cleaning & maintenance due to heavy snow fall amount, wind blowing, or freezing rain, then additional help would be necessary to stay within contract specs.

Question: Will regular shift facility employee be available to help with mowing and other outdoor requirements?

Response: As long as those activities do not interfere with the cleaning and maintenance frequency schedule per contract specs.

Question: The price sheet asks for cost for only the first year. What happens when we are awarded the second year? Is the minimum wage increase scheduled for 2020 going to need to be added in this bid or the second year?

Response: Bids need to reflect pricing for a multi-year contract. See the Bid Book, page 15, "Contract Agreement, Transportation Related Maintenance Work, Section B. Time."

Question: Will there be a bid walk scheduled in the next week?

Response: Yes, upon request, an onsite bid walk thru can be done. See Bid Book, page 23, APPENDIX A – SPECIAL PROVISION – SPECIFICATIONS OF WORK TO BE PERFORMED, Section 1. A. at the bottom of the page.
