Amendment No. 1

Dear Sir/Ms.:

The following questions have been received:

Question: Do you add mobilization to hourly rate, or as a separate rate?

Response: Mobilization is part of the hourly rate. The contract reads “Time spent moving to and from the site will not be paid. The Contractor may be paid for time spent moving within a project. A project is defined as continuous work in the same location or several different locations within a single region without interruption.”

Question: Due to fuel rates increasing, can an increase be added within reason?

Response: There is no provision in the contract to adjust hourly rates based on fuel cost changes.

Consider these changes and information prior to submitting your bid on **February 23, 2022**.

Sincerely,

A handwritten signature in blue ink that reads "George Macdougall".
