Dear Sir/Ms.:

The following questions have been received:

**Question:** Under “outline of work” on the “Notice to Contractors” “Traffic Control” is mentioned. Does this mean we will be required to maintain professional flaggers for every catch basin, or simply have proper work signs and PPE in performance of the work?

**Response:** It is envisioned that not every work location will require flaggers. The Contractor shall provide traffic control in accordance with MUTCD and MaineDOT rules and regulations. The Contractor shall coordinate with the Contract Administrator to ensure acceptable Maintenance of Traffic Control at each specific location.

Consider these changes and information prior to submitting your bid on **February 22, 2023**.

Sincerely,
