Location: **Statewide**  
**Amendment No. 3**

Dear Sir/Ms.:

The following questions have been received:

**Question:** I had a few questions regarding the mulching contract that just went out to bid. In the area where it's going over equipment requirements it states that the equipment needs a "valid inspection sticker good thru the term of rental". What does that entail? How do I get an inspection sticker for a piece of equipment?

**Response:** Visit a mechanic that can do inspections on the appropriate piece of equipment.

**Question** My second question similar to the first is how to provide registration for that piece of equipment.

**Response:** Visit your Town Office. They can walk you through the registration process.

**Question:** Lastly, how do I confirm that my equipment is osha compliant as it states under the "Performance" section in the contract.

**Response:** All safety equipment and guards that come with a piece of equipment must remain on the equipment. If equipment lacks guards, we may prevent such equipment from operating on our roadside.

Consider these changes and information prior to submitting your bid on **February 19, 2025**

Sincerely,

A handwritten signature in blue ink, reading 'George Macdougall'.
