Basis of Award and Assignments

Multiple contracts may be awarded. Assignments will be awarded using the criteria stated below based on the individual unit prices given in the “Schedule of Items”, and the Maine Business and Economic Impact.

The dollar amount of this Contract is in no way a guarantee that the Department will assign Work for any or all of the total amount.

Scoring

The Bids will be scored on the basis of the following weighted criteria:

Criteria	Weight
SECTION 0001 Price	90%
SECTION 0002 Maine Business and Economic Impact Consideration	10%

1. The scoring formula for price is: 90 points to low bidder, and others will be $(\text{Lowest submitted cost bid} / \text{Cost of bid being scored}) \times 90 = \text{pro-rated score}$.
2. Maine Business and Economic Impact will be scored using the total number of points the bidder receives from answering the information in the Schedule of Items.

The Department may award contracts to all responsive, responsible bidders that have the ability to respond in a timely manner and are experienced/qualified and meet “Contractor requirements”.

The dollar amount of this Contract does not guarantee that the Department will assign Work for any or all of the total amount.

The Department and each responsive Bidder may enter into a Contract that will obligate each Contractor to perform work at prices listed by the bidder in the Schedule of Items depending upon the needs of the Department according to the following terms. Work will be assigned under these contracts according to the following process: The Department will estimate the Contractor with the highest scored assignment based on contracted unit prices for the total quantity for the particular Work and scores from the Maine Business and Economic Impact Consideration using the weighted criteria stated above. **The Department will offer to assign the Work to the Contractor with the highest score for the particular Work (the “Assignment”)**, that indicated willingness to work in the assignment location, with the ability to perform the Work, and that Contractor will have first option to perform work. The Contractor with the lowest cost may not be offered the work first when consideration for Maine business enterprises results in low cost bids not being considered as the best-value for the State of Maine. Contractors are not required to accept work. If Contractors do not respond to requests for assignments in the allotted time, The Department shall proceed as if the Contractor has declined

the assignment. If this Contractor is unable to accept the Assignment, respond in the necessary and appropriate time for the Assignment, complete the Assignment in the allotted time, or does not have the equipment, experience or ability to complete the Assignment, then the Contract Administrator will contact the firm that is estimated to have the next highest score to see if that Contractor will accept the Assignment and subsequent Contractors in ascending order of the amount of their bids, until a Contractor accepts the Assignment. The Department will estimate for a particular Assignment based on the individual unit bid prices for the total quantity of estimated work in that Assignment. The Department and the Contractor shall mutually agree to quantities and schedules prior to the Contractor beginning the Assignment. Contractors are not required to accept all assignments offered. The Contractor shall respond in a timely manner in accordance with a schedule approved by the Department. The Contractor shall notify Contract Administrator, prior to working at any facility.

In the case an emergency arises for which the response time does not allow for the preparation of a bid solicitation, that the Department has determined the work required can best be addressed using one of these contracts, the Department will contact one or more of the Contractors. The Department will select a Contractor to call based on an evaluation of rates, experience and equipment, willingness to perform work in the applicable county, geographic proximity, response time, consideration of Maine business enterprise, and determination of what is in the best interest of the State. The Contractor shall have a half hour to accept or decline. The Contractor shall be onsite in less than three hours unless the Department has directed otherwise.

Not all plumbing services will be done under these contracts. These Contracts will not include Work that falls under Capital Work Plan or Program projects, moveable bridges, separately advertised projects, snow and ice equipment maintenance and repair or Ferry/Marine services. Work may also be done by the Department. Emergency Work may be done by other means not associated with this solicitation.

Bidder Requirements Post-Bid, Pre-Award

In order to be considered for the award of this contract, the Bidder and key employees that will be assigned to the Work in this Contract shall have successfully completed projects of similar size and scope and have sufficient experience in plumbing. Said experience shall include, at a minimum, at least three (3) years of plumbing of equal or greater complexity than the work required by this Contract completed by the Bidder in the last five (5) years.

Prior to Award, the Apparent Successful Bidders must submit proof of at least one Licensed Maine Master Plumber and proof of other Maine plumbing licenses held by company, owners or employees.

The Bidder shall be able to comply with the Contract Requirements, be able to deliver according to the contract schedule, and have a history of satisfactory performance.

The Department will notify the Apparent Successful Bidder(s) of any requirements for post-bid, pre-award qualifications and the Bidder shall provide all of the items within 7 days of the notice.

The Contractor(s) shall submit two copies or an electronic copy of all required submittals to the Department.

The Bidder may be required to submit evidence of compliance with all Contractor Requirements set forth in this Contract.

If the Bidder does not have a history of satisfactory performance performing similar Work under contracts with the Department that meets the Contractor Requirements regarding experience, the Bidder may be required to submit written documentation setting forth the experience of the Bidder and subcontractor(s) who will be performing the Work specified in the contract documents, including a description of similar construction projects completed in the last five years that highlight the Bidder's and subcontractors' related experience. Such information shall include:

1. the Company's history and experience of work related specifically to the Scope of Work in this contract;
2. the name of the owner for whom the work was performed;
3. the name and telephone number of a contact person;
4. a description of the work performed by the Bidder or their subcontractor; and
5. the total construction cost of each project, and the value of work performed by the Bidder or their subcontractor.

The Bidder may be required to submit the relevant experience of the key personnel and supervisors who will be performing Work under this contract, their experience and number of years performing work related specifically to the Scope of Work in this contract.

Upon receipt of the pre-award submittals, the Department will review the submissions and determine if the submitted evidence or information satisfies the Department requirement that the bidder is qualified to properly carry out the terms of the Contract.

Bidders shall ensure that all information required herein is submitted. Provision of inaccurate information or failure to provide all completed and required information may result in the Bidder being determined to be "Not Qualified" or disqualified as non-responsive. Within 14 days, the Department will review the submissions and determine if the available evidence or information satisfies the Department requirement that the bidder is qualified to properly carry out the terms of the Contract. The Department reserves the right to communicate in writing with Bidders, if needed, to obtain additions to and/or clarification of information contained in the submittals received. The Bidder shall have 3 days to submit additions and clarifications. The Bidder will have no additional opportunity to submit or clarify information. The Department will not provide an opportunity for the Bidder to meet to present evidence.

The qualifications submitted will be checked for general conformance with the concept of the project and compliance with the requirements set out in the Contract Documents. This review does not modify the Contractor's duty to comply with the Contract documents. No review or comment by the Department, or any failure to review or comment, shall absolve the Contractor of its responsibility or to shift any responsibility to the Department.

Based on these submissions, the Department will make one of the following determinations:

1. Qualified - The Contractor has satisfied the post-bid, pre-award qualification requirements and demonstrated to the Department's satisfaction that it is responsible, can meet the Contractor Requirements set forth in this contract, and is qualified to perform this type of work.
2. Not Qualified - Bidder is not qualified to properly carry out the terms of the Contract and/or the submission does not meet specifications and accepted standards and is not acceptable, as determined by the Department.

There is no Appeal process and the determination of "Not Qualified" is final. The Department will reject the bid as non-responsive, and the Award process will proceed without the unqualified Bidder.

The Department will notify the Bidder of its determination in writing. If a determination of "Not Qualified" is rendered, the notice will set forth reasons to the extent practical. Such reasons may include the following:

- A. Not meeting contract Contractor Requirements
- B. Insufficient experience

“103.1.4 Bids for goods and services Evaluators of competitive bids for goods and services shall give consideration to the investment in the State by business enterprises as a best-value criterion. 103.4 Notice of Award Delete the section in its entirety and replace with the following:

“The Department has 30 Days following Bid Opening to Deliver a written Notice of Intent to Award and request a payment bond, performance bond, insurance bond, special certifications, and other information from the Apparent Successful Bidders. If prequalification is required and an Apparent Successful Bidder is not prequalified at the time of Bid Opening, the Department shall have 15 days from the successful completion of the Prequalification process or 30 days following Bid Opening; whichever is longer. Once these pre-execution conditions are met, the Department will execute the Contract and notify the Contractor of the award with a written Notice of Award. If a Notice of Award is not sent within 30 days of receipt of the proper bonds, insurance, and other pre-award requirements, an Apparent Successful Bidder may withdraw its Bid without forfeiture of its Bid Guaranty or Bidding eligibility. The Notice of Intent to Award will set forth and/or reference the conditions that the Bidder must fulfill before Contract Execution. If the Department and an Apparent Successful Bidder agree, an extension beyond the 30 days of the Bid and Bid prices may occur and the Bid remains viable. For a related provision, see Section 103.5.”

103.5 Award Conditions Replace the first paragraph with the following:

“The Apparent Successful Bidder must provide and/or perform all of the items listed in this Section 103.5 within 14 Days of Receipt of the Notice of Intent to Award. Unless indicated otherwise, all items must be Delivered to the Department’s Bureau of Maintenance & Operations.”

Once the Department has received the bonds (if applicable), insurance, and any other pre-award items required, the Department will sign and execute the Contract. The point of Contract execution is when the Contractor receives written notice that the contract has been signed by the Department and executed.”
